

ERP Organizational Change Management (OCM) Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's fast-paced digital transformation era, organizations face unprecedented challenges in implementing ERP systems effectively. Successful ERP deployment is not solely a technological endeavour it hinges on robust Organizational Change Management (OCM) strategies that align people, processes, and technology. ERP Organizational Change Management (OCM) Training Course equips participants with strategic, practical, and actionable tools to drive adoption, minimize resistance, and maximize ROI from ERP investments. Participants will gain insights into change readiness assessment, stakeholder engagement, communication strategies, and performance tracking, ensuring sustainable transformation across all organizational layers.

By integrating real-world case studies, interactive workshops, and hands-on exercises, this program enables participants to develop proactive change management skills that support seamless ERP adoption. Learners will understand how to leverage digital transformation best practices, employee engagement strategies, and data-driven change analytics to enhance business performance. This course is designed for leaders, managers, and change agents seeking to navigate ERP implementations with confidence, agility, and measurable impact.

Programme Curriculum

ERP Organizational Change Management (OCM) Training Course

Introduction

In today's fast-paced digital transformation era, organizations face unprecedented challenges in implementing ERP systems effectively. Successful ERP deployment is not solely a technological endeavour it hinges on robust Organizational Change Management (OCM) strategies that align people, processes, and technology.

ERP Organizational Change Management (OCM) Training Course equips participants with strategic, practical, and actionable tools to drive adoption, minimize resistance, and maximize ROI from ERP investments. Participants will gain insights into change readiness assessment, stakeholder engagement, communication strategies, and performance tracking, ensuring sustainable transformation across all organizational layers.

By integrating real-world case studies, interactive workshops, and hands-on exercises, this program enables participants to develop proactive change management skills that support seamless ERP adoption. Learners will understand how to leverage digital transformation best practices, employee engagement strategies, and data-driven change analytics to enhance business performance. This course is designed for leaders, managers, and change agents seeking to navigate ERP implementations with confidence, agility, and measurable impact.
