

# Food System Resilience to Pandemics and Disasters Training Course

## Professional Development Training Course Outline

|          |                                |               |                         |
|----------|--------------------------------|---------------|-------------------------|
| Category | Food processing and Technology | Duration      | 5 Days                  |
| Base Fee | \$1,500 USD                    | Delivery Mode | Online / On-site Hybrid |

### Course Introduction

The increasing frequency of pandemics and climate-related disasters highlights the urgent need to strengthen global and local food systems. Building resilience in food systems ensures continuity of food supply chains, enhances food security, and supports sustainable agriculture during times of crisis. Food System Resilience to Pandemics and Disasters Training Course focuses on innovative strategies, risk management practices, and adaptive frameworks that can mitigate the impact of pandemics and disasters on food systems.

Through practical insights, evidence-based strategies, and interactive case studies, participants will learn how to develop robust policies, adopt smart technologies, and enhance preparedness to secure food system sustainability. The course is designed to equip stakeholders, policymakers, and practitioners with actionable tools to design resilient food networks that can withstand external shocks while promoting long-term environmental and social sustainability.

### Programme Curriculum

#### Food System Resilience to Pandemics and Disasters Training Course

##### Introduction

The increasing frequency of pandemics and climate-related disasters highlights the urgent need to strengthen global and local food systems. Building resilience in food systems ensures continuity of food supply chains, enhances food security, and supports sustainable agriculture during times of crisis. Food System Resilience to Pandemics and Disasters Training Course focuses on innovative strategies, risk management practices, and adaptive frameworks that can mitigate the impact of pandemics and disasters on food systems.

Through practical insights, evidence-based strategies, and interactive case studies, participants will learn how to develop robust policies, adopt smart technologies, and enhance preparedness to secure food system sustainability. The course is designed to equip stakeholders, policymakers, and practitioners with actionable tools to design resilient food networks that can withstand external shocks while promoting long-term environmental and social sustainability.

### **Course Objectives**

1. Strengthen knowledge of food system resilience frameworks and adaptive models
2. Analyze the impact of pandemics on global and local food security
3. Explore sustainable agricultural practices for disaster preparedness
4. Understand climate-smart strategies for risk management in food systems
5. Examine digital innovations for food chain continuity
6. Develop early warning systems and response strategies
7. Build resilient supply chains and logistics models
8. Assess policy frameworks for food resilience and disaster governance
9. Apply community-based approaches to enhance food security
10. Integrate nutrition-sensitive strategies into resilience planning
11. Evaluate financial and insurance mechanisms for food system recovery
12. Design monitoring and evaluation tools for resilience programs
13. Promote cross-sector collaboration for pandemic and disaster preparedness

### **Organizational Benefits**

- Improved preparedness for food system disruptions
- Strengthened institutional resilience against global shocks
- Enhanced risk management and early warning capabilities
- Increased efficiency in crisis response strategies
- Better integration of sustainable practices in food systems
- Strengthened collaboration among stakeholders and partners
- Improved food security outcomes for communities
- Reduced financial losses during pandemics and disasters
- Access to innovative technologies and adaptive frameworks
- Enhanced organizational credibility in food system governance

### **Target Audiences**

1. Policymakers in agriculture and food security
2. Disaster risk management practitioners
3. Food industry leaders and managers
4. NGO and humanitarian organization representatives
5. Agricultural researchers and academicians
6. Community-based organization leaders
7. Climate change and sustainability professionals
8. Supply chain and logistics managers

**Course Duration:** 5 days

### **Course Modules**

#### **Module 1: Introduction to Food System Resilience**

- Understanding resilience in the context of pandemics and disasters
- Key drivers of food system vulnerability
- Global frameworks and international policies
- Importance of sustainable agricultural practices
- Integration of social and economic dimensions
- Case Study: Lessons from COVID-19 impact on global food supply chains

## **Module 2: Risk Assessment and Disaster Preparedness**

- Identifying risks in food systems
- Vulnerability and capacity analysis
- Disaster preparedness frameworks
- Policy implications of risk assessment
- Climate-smart agriculture in risk mitigation
- Case Study: Smallholder farmers' adaptive strategies in East Africa

## **Module 3: Sustainable Agricultural Practices**

- Principles of agroecology
- Conservation agriculture for resilience
- Water management in crisis conditions
- Soil fertility and productivity restoration
- Diversification of crops and livelihoods
- Case Study: Resilient farming systems in Southeast Asia

## **Module 4: Digital Innovations and Smart Technologies**

- ICT applications for food security monitoring
- Blockchain in food supply chains
- Early warning mobile platforms
- Data-driven decision-making in crises
- Artificial intelligence for predictive modeling
- Case Study: Use of drones in monitoring agricultural resilience

## **Module 5: Supply Chain and Logistics Resilience**

- Food supply chain vulnerabilities
- Local versus global sourcing strategies
- Cold chain management during pandemics
- Strengthening transport infrastructure
- Building redundancy into logistics networks
- Case Study: Supply chain resilience in humanitarian food aid

## **Module 6: Nutrition and Food Security in Crisis**

- Nutrition-sensitive agriculture approaches
- Impacts of pandemics on dietary diversity
- Strategies for ensuring food availability
- Social protection and nutrition programs
- Linking health and food systems
- Case Study: Nutrition resilience programs during Ebola crisis

## **Module 7: Governance and Policy Frameworks**

- National food security policies
- Role of international agreements
- Multi-stakeholder coordination mechanisms
- Public-private partnerships in resilience
- Governance challenges in fragile states
- Case Study: Policy responses to food crises in Sub-Saharan Africa

## **Module 8: Financing Food System Resilience**

- Financial risk management in agriculture
- Role of insurance schemes
- Microfinance and resilience-building
- Investment in resilient infrastructure
- Mobilizing donor support and partnerships
- Case Study: Index-based insurance schemes in Kenya

## **Training Methodology**

- Interactive lectures and facilitated discussions
- Real-world case studies and scenario analysis
- Group exercises and participatory simulations
- Practical demonstrations of digital tools
- Peer-to-peer knowledge sharing sessions
- Development of action plans tailored to participants' contexts

## **Register as a group from 3 participants for a Discount**

Send us an email: [info@fineskilltrainingcenter.com](mailto:info@fineskilltrainingcenter.com) or call +254769199797

## **Certification**

*Upon successful completion of this training, participants will be issued with a globally- recognized certificate.*

## **Tailor-Made Course**

*We also offer tailor-made courses based on your needs.*

## **Key Notes**

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commencement of the training, to FINESKILL TRAINING CENTER account, as indicated in the invoice so as to enable us prepare better for you.

# Upcoming Scheduled Sessions

| Start Date  | End Date    | Location | Price   |
|-------------|-------------|----------|---------|
| 07 Sep 2026 | 11 Sep 2026 | Physical | \$1,500 |
| 14 Sep 2026 | 18 Sep 2026 | Physical | \$1,500 |
| 21 Sep 2026 | 25 Sep 2026 | Physical | \$1,500 |
| 28 Sep 2026 | 02 Oct 2026 | Physical | \$1,500 |
| 05 Oct 2026 | 09 Oct 2026 | Physical | \$1,500 |
| 12 Oct 2026 | 16 Oct 2026 | Physical | \$1,500 |
| 19 Oct 2026 | 23 Oct 2026 | Physical | \$1,500 |
| 26 Oct 2026 | 30 Oct 2026 | Physical | \$1,500 |
