Course Introduction

Gender and Supply Chains Training Course is a cutting-edge program designed to integrate gender equity, diversity, and inclusion principles into modern supply chain management. In today's globalized economy, gender-responsive supply chains are not only ethical but also enhance operational efficiency, innovation, and sustainability. This course equips professionals with the knowledge and tools to identify gender disparities, implement inclusive sourcing strategies, and foster equitable workforce participation throughout the supply chain. Leveraging case studies from leading organizations, participants will explore practical approaches to gender mainstreaming in procurement, logistics, and supplier engagement.

By emphasizing strategic interventions, data-driven decision-making, and policy advocacy, this program prepares supply chain professionals, business leaders, and policymakers to create inclusive, resilient, and socially responsible supply chains. Participants will gain insights into gender audits, inclusive procurement frameworks, and digital transformation tools, ensuring that their supply chains are compliant with global standards while promoting women's economic empowerment. This course is ideal for those seeking to drive impactful change, strengthen corporate social responsibility, and champion gender-responsive supply chain innovation.
