- Core requirements of the ITSM framework
- Governance and leadership roles
- Integration with business strategy
- Documented information requirements
- Case study: Building ITSM frameworks for government agencies

Module 3: Service Lifecycle Approach

- Service planning and design principles
- Transition of services into live environments
- Continual service improvement strategies
- Managing service delivery
- Key success factors for lifecycle management
- Case study: Service lifecycle in a telecom company

Module 4: Risk-Based Thinking in ITSM

- Identifying IT service risks
- Risk assessment tools and techniques
- Mitigation strategies in service delivery
- Linking risk management with business continuity
- Monitoring and reporting on risks
- Case study: Risk-based ITSM in healthcare services

Module 5: Service Design and Delivery

- Designing effective IT services
- Aligning services with user needs
- Service portfolio and catalog management
- Service level agreements (SLAs)
- IT service continuity planning
- Case study: Designing IT services in e-commerce

Module 6: Performance Measurement in ITSM

- Defining performance metrics
- Key performance indicators (KPIs) for IT services
- Tools for monitoring service performance
- Benchmarking IT services
- Reporting on service performance
- Case study: Performance metrics in cloud services

Module 7: Incident and Problem Management

- Principles of incident management
- Problem-solving methodologies
- Root cause analysis techniques
- Escalation procedures
- Communication in service restoration
- Case study: Handling incidents in banking IT systems

Module 8: Service Request and Change Management

- Managing service requests
- Change control process
- Risk considerations in change management
- Approval and authorization procedures
- Documentation of changes
- Case study: Change management in IT outsourcing

Module 9: Supplier and Relationship Management

- Role of suppliers in IT services
- Building strong service provider relationships
- Supplier evaluation and monitoring
- Outsourcing risks and mitigation
- Collaborative service management practices
- Case study: Supplier management in cloud services

Module 10: Continual Service Improvement (CSI)

- Importance of continual improvement
- Identifying improvement opportunities
- CSI model and processes
- Monitoring improvement results
- Linking CSI with customer satisfaction
- Case study: Continual improvement in IT support centers

Module 11: IT Governance and Compliance

- Principles of IT governance
- Ensuring compliance with legal and regulatory requirements
- Roles of IT governance frameworks
- Accountability in IT service management
- Linking governance to organizational performance
- Case study: Governance compliance in a multinational corporation

Module 12: Digital Transformation and ITSM

- Role of ITSM in digital transformation
- Cloud computing integration
- AI and automation in IT service management
- Cybersecurity considerations in ITSM
- Innovation in ITSM processes

- Case study: ITSM in digital transformation for retail

Module 13: Audit and Certification Readiness

- Preparing for certification audits
- Internal audit practices
- Common nonconformities and corrective actions
- Certification process overview
- Maintaining certification
- Case study: ISO 20000-1:2018 audit preparation in IT services

Module 14: Case Studies and Practical Applications

- Real-world examples of ITSM implementation
- Success factors and lessons learned
- Challenges in adopting ISO 20000-1:2018
- Industry-specific applications
- Best practices for ITSM sustainability
- Case study: ITSM success story in global manufacturing

Module 15: Final Review and Assessment

- Comprehensive course review
- Mock assessment for certification
- Group discussions and Q&A
- Role-playing ITSM scenarios
- Final preparation strategies
- Case study: Consolidated ITSM assessment project

Training Methodology

- Interactive lectures with practical insights
- Group discussions and brainstorming sessions
- Real-world case study analysis
- Hands-on exercises and role-playing activities
- Mock assessments and feedback sessions
