

Microinsurance and Inclusive Insurance Design Training

Professional Development Training Course Outline

Category	Insurance	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's rapidly evolving financial landscape, Microinsurance and Inclusive Insurance Design are pivotal in extending risk protection to low-income and underserved communities globally. As climate change, economic instability, and healthcare inequity grow, the demand for innovative, inclusive, and sustainable insurance solutions is more urgent than ever. Training Course on Microinsurance & Inclusive Insurance Design (Advanced) dives deep into scalable microinsurance models, regulatory frameworks, customer-centric product design, and digital innovations to drive financial inclusion and social impact.

Designed for professionals and institutions aiming to elevate their impact in the inclusive finance ecosystem, this program provides expert insights into market-driven insurance design, client engagement strategies, and digital distribution platforms. Through immersive case studies and applied learning, participants will gain the skills and strategic thinking required to implement and scale microinsurance products that are not only profitable but equitable and resilient.

Programme Curriculum

Microinsurance and Inclusive Insurance Design Training

Introduction

In today's rapidly evolving financial landscape, Microinsurance and Inclusive Insurance Design are pivotal in extending risk protection to low-income and underserved communities globally. As climate change, economic instability, and healthcare inequity grow, the demand for innovative, inclusive, and sustainable insurance solutions is more urgent than ever. Microinsurance and Inclusive Insurance Design Training dives deep into scalable microinsurance models, regulatory frameworks, customer-centric product design, and digital innovations to drive financial inclusion and social impact.

Designed for professionals and institutions aiming to elevate their impact in the inclusive finance ecosystem, this program provides expert insights into market-driven insurance design, client engagement strategies, and digital distribution

platforms. Through immersive case studies and applied learning, participants will gain the skills and strategic thinking required to implement and scale microinsurance products that are not only profitable but equitable and resilient.

Course Objectives

1. Understand core principles of microinsurance and inclusive insurance models.
2. Explore global trends and innovations in digital insurance ecosystems.
3. Design customer-centric insurance products for underserved populations.
4. Evaluate data-driven approaches in inclusive insurance development.
5. Analyze regulatory frameworks impacting microinsurance scalability.
6. Develop strategies for climate risk insurance and agricultural resilience.
7. Apply behavioral science to increase insurance adoption and retention.
8. Use insurtech solutions for efficient product delivery and claims management.
9. Assess public-private partnerships for financial risk protection.
10. Identify strategies for gender-inclusive and youth-focused insurance models.
11. Apply ethical principles to ensure equity in risk-sharing mechanisms.
12. Create sustainable business models for community-based insurance schemes.
13. Learn from global case studies to apply inclusive design principles in context.

Target Audiences

1. Microinsurance professionals and technical advisors
2. Insurance product development specialists
3. Financial inclusion and development professionals
4. NGO and nonprofit program designers
5. Insurance regulators and policymakers
6. Actuarial and risk assessment professionals
7. Insurtech startup founders and digital solution providers
8. Researchers and students in social protection and financial services

Course Duration: 5 days

Course Modules

Module 1: Fundamentals of Microinsurance & Inclusive Design
