

Public Financial Management (PFM) and Urban Infrastructure Development Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Effective Public Financial Management (PFM) is crucial for the sustainable development of urban infrastructure, ensuring that resources are efficiently allocated, transparently utilized, and monitored for optimal impact. Public Financial Management (PFM) and Urban Infrastructure Development Training Course provides participants with practical skills, innovative strategies, and policy insights to enhance financial governance, optimize urban planning, and deliver high-quality infrastructure projects. Participants will gain hands-on knowledge on budget formulation, public procurement, fiscal risk management, and investment planning tailored to urban development contexts.

Urban infrastructure development faces increasing demands due to rapid urbanization, population growth, and evolving public needs. This course integrates financial management principles with infrastructure planning, equipping professionals with the expertise to drive impactful projects, leverage funding mechanisms, and strengthen accountability. With real-world case studies, interactive modules, and practical tools, participants will be prepared to implement sustainable urban infrastructure initiatives that meet both community needs and regulatory standards.

Programme Curriculum

Public Financial Management (PFM) and Urban Infrastructure Development Training Course

Introduction

Effective Public Financial Management (PFM) is crucial for the sustainable development of urban infrastructure, ensuring that resources are efficiently allocated, transparently utilized, and monitored for optimal impact. Public Financial Management (PFM) and Urban Infrastructure Development Training Course provides participants with

practical skills, innovative strategies, and policy insights to enhance financial governance, optimize urban planning, and deliver high-quality infrastructure projects. Participants will gain hands-on knowledge on budget formulation, public procurement, fiscal risk management, and investment planning tailored to urban development contexts.

Urban infrastructure development faces increasing demands due to rapid urbanization, population growth, and evolving public needs. This course integrates financial management principles with infrastructure planning, equipping professionals with the expertise to drive impactful projects, leverage funding mechanisms, and strengthen accountability. With real-world case studies, interactive modules, and practical tools, participants will be prepared to implement sustainable urban infrastructure initiatives that meet both community needs and regulatory standards.

Course Objectives

1. Master core principles of Public Financial Management in urban development.
2. Apply strategic budgeting techniques for infrastructure projects.
3. Implement transparent financial governance frameworks.
4. Optimize procurement processes for urban development initiatives.
5. Manage fiscal risks and ensure accountability in public investments.
6. Leverage innovative funding models for sustainable infrastructure.
7. Integrate urban planning and PFM for effective project outcomes.

Course Duration: 5 days

Course Modules

Module 1: Introduction to PFM in Urban Infrastructure

- Overview of Public Financial Management
- Role of PFM in urban infrastructure
- Key financial principles and tools
- Case Study: Budgeting for a metropolitan transit project
- Hands-on exercise: Mapping financial flows
- Practical scenario discussion

Module 2: Budgeting and Planning for Infrastructure Projects

- Strategic budgeting approaches
- Capital vs. operational budgeting
- Integrating PFM in urban planning
- Case Study: Multi-year infrastructure development plan
- Budget allocation simulation
- Group discussion on budget prioritization

Module 3: Public Procurement and Contract Management

- Procurement frameworks and policies
- Tendering and contract evaluation
- Risk mitigation in procurement
- Case Study: Procurement of a city water supply system
- Interactive procurement exercise
- Evaluation of real-life procurement challenges

Module 4: Fiscal Risk Management

- Identifying and managing fiscal risks
- Contingency planning for urban projects
- Debt management strategies
- Case Study: Financing a municipal road expansion project
- Scenario analysis workshop
- Risk monitoring exercise

Module 5: Financing Urban Infrastructure Projects

- Innovative funding models (PPP, bonds, grants)
- Mobilizing domestic and international resources
- Public-private collaboration in infrastructure
- Case Study: PPP model for a light rail system
- Financial structuring exercise
- Investment planning discussion

Module 6: Monitoring, Evaluation, and Performance

- Tools for performance monitoring
- KPIs for urban projects
- Evaluating financial efficiency
- Case Study: Evaluating a city sanitation project
- Performance dashboard exercise
- Continuous improvement planning

Module 7: Legal and Regulatory Compliance

- Key laws and regulations in PFM
- Governance standards for urban infrastructure
- Ensuring transparency and accountability
- Case Study: Legal compliance in municipal housing projects
- Compliance checklist exercise

- Policy alignment discussion

Module 8: Sustainability and Resilient Urban Development

- Integrating sustainability in urban projects
- Climate-resilient infrastructure planning
- Community-centered development approaches
- Case Study: Green infrastructure in metropolitan parks
- Sustainability planning workshop
- Stakeholder engagement exercise

Training Methodology

- Interactive lectures with real-life examples
- Case study analysis for practical understanding
- Group exercises and workshops for hands-on learning
- Scenario-based simulations to test decision-making
- Expert-led discussions and Q&A sessions
- Field visits (if applicable) for contextual exposure
