

Public Health Law & Regulations Training Course

Professional Development Training Course Outline

Category	Public Health	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Public Health Law & Regulations Training Course is designed to equip professionals with advanced knowledge of global health legislation, regulatory frameworks, International Health Regulations (IHR 2005), health policy enforcement, and compliance mechanisms that guide national and international public health systems. With increasing global health threats such as pandemics, antimicrobial resistance, and climate-related health risks, understanding public health law has become a critical competency for health leaders, policymakers, and practitioners.

This program provides a comprehensive, practice-oriented approach to health governance, regulatory impact assessment, legal epidemiology, human rights in health, and emergency preparedness laws. Participants will gain the ability to interpret, apply, and evaluate legal instruments governing public health interventions. The course integrates real-world case studies, WHO frameworks, and comparative health law systems to enhance decision-making, policy implementation, and regulatory compliance in dynamic health environments.

Programme Curriculum

Public Health Law & Regulations Training Course

Introduction

Public Health Law & Regulations Training Course is designed to equip professionals with advanced knowledge of global health legislation, regulatory frameworks, International Health Regulations (IHR 2005), health policy enforcement, and compliance mechanisms that guide national and international public health systems. With increasing global health threats such as pandemics, antimicrobial resistance, and climate-related health risks, understanding public health law has become a critical competency for health leaders, policymakers, and practitioners.

This program provides a comprehensive, practice-oriented approach to health governance, regulatory impact assessment, legal epidemiology, human rights in health, and emergency preparedness laws. Participants will gain the ability to interpret, apply, and evaluate legal instruments governing public health interventions. The course integrates real-world case studies, WHO frameworks, and comparative health law systems to enhance decision-making, policy implementation, and regulatory compliance in dynamic health environments.

Course Duration

5 days
