

SAP S/4HANA Sales and Distribution (SD) Training Course

Professional Development Training Course Outline

Category	Enterprise Resource Planning (ERP)	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

The SAP S/4HANA Sales & Distribution (SD) module is a cornerstone of enterprise resource planning, empowering organizations to streamline order-to-cash processes, enhance customer experience, and optimize sales operations. SAP S/4HANA Sales & Distribution (SD) Training Course is designed for professionals seeking to gain hands-on expertise in configuring and managing sales orders, pricing, delivery, billing, and reporting in the latest SAP S/4HANA environment. Participants will gain practical insights into real-time analytics, automation, and integration with other modules such as MM, FI, and CRM, ensuring they can drive business efficiency and support digital transformation initiatives.

Through interactive, scenario-based learning, this training equips participants with the skills to handle complex business processes, improve sales forecasting, and maximize revenue opportunities. By leveraging case studies, simulation exercises, and system demonstrations, learners will acquire the knowledge to configure SD settings, manage master data, and generate actionable insights. Whether you are a functional consultant, sales manager, or SAP professional, this course will enhance your ability to implement end-to-end sales and distribution strategies that align with modern business requirements and industry best practices.
