

Storytelling with M&E Data Training Course

Professional Development Training Course Outline

Category	Monitoring and Evaluation	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In the era of data-driven decision-making, transforming Monitoring and Evaluation (M&E) data into compelling stories is essential for influencing stakeholders, driving policy, and ensuring program success. Storytelling with M&E Data Training Course equips participants with practical skills to analyze, visualize, and communicate M&E insights effectively. Learners will explore techniques that turn raw datasets into impactful narratives that resonate with decision-makers, donors, and communities. Emphasis is placed on integrating data visualization, narrative techniques, evidence-based insights, and actionable recommendations to make data both informative and persuasive.

Participants will gain mastery in using M&E data to craft stories that engage diverse audiences, enhance transparency, and support evidence-based advocacy. By combining quantitative and qualitative M&E findings, the course strengthens participants' abilities to communicate program achievements, challenges, and recommendations clearly. Through hands-on exercises, real-world case studies, and interactive sessions, learners will develop the confidence to translate complex data into clear, compelling, and actionable insights that drive impact.
