

Sustainability & ESG Reporting Training Course

Professional Development Training Course Outline

Category	ACCOUNTING & FINANCE	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Sustainability and ESG Reporting have become essential strategic priorities for organizations seeking long-term growth, regulatory compliance, investor confidence, and corporate resilience. This intensive training course provides participants with advanced knowledge and practical skills in Environmental, Social, and Governance (ESG) frameworks, sustainability disclosures, climate risk reporting, carbon accounting, stakeholder engagement, sustainable finance, and integrated reporting. Sustainability & ESG Reporting Training Course equips professionals with modern tools and global best practices for measuring sustainability performance, enhancing ESG transparency, improving governance standards, and aligning organizational strategies with international sustainability standards such as GRI, SASB, TCFD, IFRS Sustainability Standards, CSRD, and UN Sustainable Development Goals (SDGs).

Participants will explore emerging trends in green finance, ESG data analytics, climate governance, sustainability assurance, ESG risk management, net-zero strategies, ethical leadership, and digital sustainability transformation. Through practical exercises, real-world case studies, and interactive workshops, learners will gain competencies in preparing sustainability reports, developing ESG metrics, managing sustainability disclosures, improving stakeholder trust, and driving sustainable organizational transformation. The course emphasizes innovation, regulatory readiness, sustainable business performance, and ESG-driven value creation within modern global markets.

Programme Curriculum

Sustainability & ESG Reporting Training Course

Introduction

Sustainability and ESG Reporting have become essential strategic priorities for organizations seeking long-term growth, regulatory compliance, investor confidence, and corporate resilience. This intensive training course

provides participants with advanced knowledge and practical skills in Environmental, Social, and Governance (ESG) frameworks, sustainability disclosures, climate risk reporting, carbon accounting, stakeholder engagement, sustainable finance, and integrated reporting. Sustainability & ESG Reporting Training Course equips professionals with modern tools and global best practices for measuring sustainability performance, enhancing ESG transparency, improving governance standards, and aligning organizational strategies with international sustainability standards such as GRI, SASB, TCFD, IFRS Sustainability Standards, CSRD, and UN Sustainable Development Goals (SDGs).

Participants will explore emerging trends in green finance, ESG data analytics, climate governance, sustainability assurance, ESG risk management, net-zero strategies, ethical leadership, and digital sustainability transformation. Through practical exercises, real-world case studies, and interactive workshops, learners will gain competencies in preparing sustainability reports, developing ESG metrics, managing sustainability disclosures, improving stakeholder trust, and driving sustainable organizational transformation. The course emphasizes innovation, regulatory readiness, sustainable business performance, and ESG-driven value creation within modern global markets.
