Professional Development Training Course Outline

Category	Taxation and Revenue	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

In the evolving global business environment, multinational corporations must develop tax-efficient cash repatriation strategies to optimize global liquidity, ensure compliance, and enhance shareholder value. Tax-Efficient Cash Repatriation Strategies Training Course explores advanced techniques in cross-border tax planning, dividend repatriation, intercompany financing, and transfer pricing alignment to enable tax professionals and financial managers to manage global cash flows effectively. Participants will gain practical knowledge on international tax treaties, withholding tax management, and global cash pooling to achieve sustainable tax optimization.

As governments strengthen tax enforcement and introduce digital reporting frameworks, understanding the interplay between tax efficiency and cash repatriation becomes critical for corporate competitiveness. This course integrates practical case studies, international best practices, and data-driven methodologies to equip participants with the tools to minimize double taxation, enhance global treasury operations, and maintain regulatory compliance under OECD and BEPS standards.
