

Training Course on Business Model Innovation in Agriculture

Professional Development Training Course Outline

Category	Agriculture	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today’s rapidly evolving agricultural sector, business model innovation has become critical for boosting profitability, sustainability, and resilience. Training Course on Business Model Innovation in Agriculture is designed to equip stakeholders with the tools, strategies, and mindset needed to drive transformation in agri-enterprises. From value chain enhancement to digital disruption, the course explores dynamic business strategies that align with market shifts, environmental demands, and technological advancement. Participants will gain hands-on knowledge on redesigning agribusiness models to achieve inclusive growth, climate-smart practices, and entrepreneurial success in a competitive market.

Agricultural entrepreneurs, cooperatives, development practitioners, and agribusiness leaders must adapt to changing environments using innovative business models that leverage data-driven decisions, market intelligence, and sustainable farming practices. This training provides actionable insights into agribusiness ecosystems, customer-centric value creation, and revenue diversification strategies, all crucial for thriving in the face of economic and environmental uncertainties. By integrating real-life case studies, participants will leave with practical knowledge to implement innovative models in diverse agri-contexts.
