

Training course on Designing Public Works Programs for Social Protection

Professional Development Training Course Outline

Category	Social Protection	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Public Works Programs (PWP) stand as a critical instrument within the social protection toolkit, offering a unique blend of short-term income support and long-term community asset creation. Unlike unconditional cash transfers, PWPs provide employment opportunities, primarily for the able-bodied poor and vulnerable, often in labor-intensive projects such as infrastructure development, environmental conservation, or community services. This course is meticulously designed to equip policymakers, social protection program managers, labor ministry officials, public works engineers, local government authorities, and development practitioners with the expert knowledge and practical methodologies to strategically design, implement, and evaluate effective Public Works Programs for social protection. Training Course on Designing Public Works Programs for Social Protection focuses on PWP objectives and typologies, targeting and wage setting, project identification and management, payment and delivery mechanisms, gender and social inclusion, and monitoring and evaluation, blending rigorous analytical frameworks with practical, hands-on application, global case studies, and interactive program design simulations. Participants will gain the strategic foresight and technical expertise to confidently lead the development of impactful PWPs, fostering unparalleled poverty reduction, employment generation, and community development, thereby securing their position as indispensable leaders in building productive and responsive social safety nets. This comprehensive 5-day program delves into nuanced methodologies for conducting labor market assessments to inform PWP design, mastering sophisticated techniques for setting appropriate wage rates that balance self-targeting with adequate income support, and exploring cutting-edge approaches to involving communities in project selection for local relevance, leveraging digital payment systems for efficiency, and integrating PWPs with broader social protection and livelihood strategies. A significant focus will be placed on understanding the interplay of PWP design with local economic contexts (e.g., in Kenya), the specific challenges of implementing PWPs in fragile contexts or areas with high informality, and the practical application of principles to ensure that public works projects generate durable and impactful community assets.

Programme Curriculum

Training Course on Designing Public Works Programs for Social Protection

Introduction

Public Works Programs (PWP) stand as a critical instrument within the social protection toolkit, offering a unique blend of **short-term income support and long-term community asset creation**. Unlike unconditional cash transfers, PWPs provide employment opportunities, primarily for the able-bodied poor and vulnerable, often in labor-intensive projects such as infrastructure development, environmental conservation, or community services. This course is meticulously designed to equip **policymakers, social protection program managers, labor ministry officials, public works engineers, local government authorities, and development practitioners** with the expert knowledge and practical methodologies to **strategically design, implement, and evaluate effective Public Works Programs for social protection**. **Training Course on Designing Public Works Programs for Social Protection** focuses on **PWP objectives and typologies, targeting and wage setting, project identification and management, payment and delivery mechanisms, gender and social inclusion, and monitoring and evaluation**, blending **rigorous analytical frameworks with practical, hands-on application, global case studies, and interactive program design simulations**. Participants will gain the strategic foresight and technical expertise to confidently lead the development of impactful PWPs, fostering unparalleled **poverty reduction, employment generation, and community development**, thereby securing their position as indispensable leaders in **building productive and responsive social safety nets**.

This comprehensive 5-day program delves into **nuanced methodologies for conducting labor market assessments to inform PWP design**, mastering **sophisticated techniques for setting appropriate wage rates that balance self-targeting with adequate income support**, and exploring **cutting-edge approaches to involving communities in project selection for local relevance, leveraging digital payment systems for efficiency, and integrating PWPs with broader social protection and livelihood strategies**. A significant focus will be placed on understanding the interplay of **PWP design with local economic contexts (e.g., in Kenya)**, the **specific challenges of implementing PWPs in fragile contexts or areas with high informality**, and the **practical application of principles to ensure that public works projects generate durable and impactful community assets**.

Course Objectives

Upon completion of this course, participants will be able to:

1. **Analyze core concepts and strategic responsibilities of Public Works Programs (PWPs)** as social protection instruments.
2. **Master sophisticated techniques for defining PWP objectives and choosing appropriate typologies** (e.g., emergency, seasonal, chronic).
3. **Develop robust methodologies for identifying and targeting eligible beneficiaries** while ensuring self-selection and minimizing exclusion errors.
4. **Implement effective strategies for setting appropriate wage rates** that balance poverty reduction with market non-distortion.
5. **Manage complex considerations for identifying, appraising, and managing public works projects** that deliver valuable community assets.
6. **Apply robust strategies for designing efficient and transparent payment and delivery mechanisms** for PWP wages (cash, food, vouchers).
7. **Understand the deep integration of gender, social inclusion, and environmental sustainability** in PWP design and implementation.

8. **Leverage knowledge of global best practices and lessons learned** from successful PWP implementations in diverse contexts.
9. **Optimize strategies for linking PWPs with broader social protection programs** and livelihood promotion initiatives.
10. **Formulate specialized recommendations for adapting PWP design to specific country contexts**, including fragile states and urban areas.
11. **Conduct comprehensive assessments** of the institutional and administrative requirements for effective PWP delivery.
12. **Navigate challenging situations** such as **seasonal variations, data limitations, elite capture, and managing expectations** in PWP implementation.
13. **Develop a holistic, evidence-based, and context-specific approach to designing and managing Public Works Programs for Social Protection**, maximizing their impact on poverty reduction and community resilience.

Target Audience:

This course is designed for professionals interested in Designing Public Works Programs for Social Protection:

1. **Social Protection Program Managers:** Responsible for designing and implementing safety net programs.
2. **Labor Ministry Officials:** Involved in employment generation and labor market policies.
3. **Public Works & Infrastructure Planners:** From government agencies responsible for community development.
4. **Local Government Authorities:** Responsible for community-level planning and implementation of public works.
5. **Economists & Fiscal Analysts:** Involved in the costing and financing of social protection interventions.
6. **Development Partners & UN Agency Staff:** Supporting countries in public works and social protection initiatives.
7. **Civil Society Organizations (CSOs):** Engaged in community development and poverty reduction efforts.
8. **Researchers & Academics:** Specializing in social policy, labor economics, and rural development.

Course Duration: 5 Days

Course Modules:

- **Module 1: Introduction to Public Works Programs (PWPs) in Social Protection**
 - **Defining PWPs:** Objectives, rationale, and evolution as a social protection instrument.
 - **Typologies of PWPs:** Emergency/shock-responsive, seasonal, chronic, and graduation-oriented.
 - **Dual Objectives:** Short-term income support vs. long-term asset creation.
 - **Advantages and Disadvantages of PWPs:** Compared to unconditional cash transfers and other safety nets.
 - **Global Overview of PWPs:** Major programs and their contexts (e.g., Ethiopia's PSNP, India's MGNREGS).
- **Module 2: Targeting and Self-Targeting Mechanisms**
 - **Principles of Targeting:** Inclusion and exclusion errors in social protection.
 - **Self-Targeting in PWPs:** The role of the wage rate and work requirement.
 - **Setting the PWP Wage Rate:** Balancing poverty reduction, market non-distortion, and fiscal sustainability.
 - **Geographic Targeting:** Focusing on poverty-stricken or shock-affected areas.

- **Community-Based Targeting and Verification:** Ensuring local ownership and reducing elite capture.
- **Module 3: Public Works Project Identification and Appraisal**
 - **Principles of Project Selection:** Labor-intensity, community relevance, technical feasibility, and environmental sustainability.
 - **Community Participation in Project Identification:** Ensuring local needs and priorities are met.
 - **Types of Public Works Projects:** Rural roads, irrigation, soil conservation, reforestation, community buildings, urban sanitation.
 - **Technical Appraisal and Costing:** Estimating labor, material, and administrative costs.
 - **Integrating PWP with Local Development Plans:** Alignment with broader development objectives.
- **Module 4: PWP Implementation and Management**
 - **Operational Manuals and Guidelines:** Developing clear procedures for program execution.
 - **Recruitment and Enrollment Processes:** Managing participant lists, work allocation, and attendance.
 - **Supervision and Quality Control:** Ensuring work standards and asset quality.
 - **Logistics and Supply Chain Management:** Materials, tools, and equipment.
 - **Addressing Challenges:** Seasonal variations, weather impacts, and quality assurance.
- **Module 5: Payment and Delivery Mechanisms**
 - **Payment Modalities:** Cash-for-Work (CFW), Food-for-Work (FFW), Voucher-for-Work (VFW).
 - **Digital Payments in PWPs:** Mobile money, bank accounts, biometric payment systems (opportunities and challenges).
 - **Payment Frequency and Timing:** Ensuring predictability and responsiveness to needs.
 - **Ensuring Payment Security and Transparency:** Minimizing fraud and leakage.
 - **Grievance Redress Mechanisms (GRMs):** Addressing complaints related to payments and work conditions.
- **Module 6: Gender, Social Inclusion, and Child Protection in PWPs**
 - **Gender Analysis in PWP Design:** Identifying and addressing specific needs and constraints of women.
 - **Promoting Women's Participation:** Flexible work hours, childcare provisions, and gender-sensitive project selection.
 - **Inclusion of Vulnerable Groups:** Persons with disabilities, indigenous peoples, and youth.
 - **Preventing Child Labor:** Ensuring PWPs do not inadvertently encourage children to work.
 - **Ensuring Safe Work Environments:** Health and safety protocols for all participants.
- **Module 7: Monitoring, Evaluation, and Learning in PWPs**
 - **Key Performance Indicators (KPIs):** Measuring outputs, outcomes, and impacts (e.g., employment days, assets created, income increase, food security).
 - **Management Information Systems (MIS) for PWPs:** Data collection, tracking, and reporting.
 - **Impact Evaluation Methodologies:** Randomized Control Trials (RCTs), quasi-experimental designs.
 - **Cost-Benefit Analysis of PWPs:** Assessing efficiency and value for money.
 - **Learning and Adaptive Management:** Using evidence to improve program design and implementation.
- **Module 8: Linking PWPs with Broader Social Protection and Livelihood Strategies**
 - **PWPs as a Stepping Stone:** Pathways to more permanent employment or self-employment.
 - **Integration with Other Safety Nets:** Complementarity with cash transfers, social insurance, and social services.
 - **"PWP-Plus" Approaches:** Combining workfare with skills training, financial literacy, or access to credit.

- **Graduation Pathways from PWPs:** Strategies to enable participants to exit the program sustainably.
- **Strengthening Local Economies:** Multiplier effects of PWP wages and asset creation.

Training Methodology

- **Interactive Workshops:** Facilitated discussions, group exercises, and problem-solving activities.
- **Case Studies:** Real-world examples to illustrate successful community-based surveillance practices.
- **Role-Playing and Simulations:** Practice engaging communities in surveillance activities.
- **Expert Presentations:** Insights from experienced public health professionals and community leaders.
- **Group Projects:** Collaborative development of community surveillance plans.
- **Action Planning:** Development of personalized action plans for implementing community-based surveillance.
- **Digital Tools and Resources:** Utilization of online platforms for collaboration and learning.
- **Peer-to-Peer Learning:** Sharing experiences and insights on community engagement.
- **Post-Training Support:** Access to online forums, mentorship, and continued learning resources.

Register as a group from 3 participants for a Discount

Certification

Upon successful completion of this training, participants will be issued with a globally recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

- Participants must be conversant in English.
- Upon completion of training, participants will receive an Authorized Training Certificate.
- The course duration is flexible and can be modified to fit any number of days.
- Course fee includes facilitation, training materials, 2 coffee breaks, buffet lunch, and a Certificate upon successful completion.
- Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
07 Sep 2026	11 Sep 2026	Physical	\$1,500
14 Sep 2026	18 Sep 2026	Physical	\$1,500
21 Sep 2026	25 Sep 2026	Physical	\$1,500
28 Sep 2026	02 Oct 2026	Physical	\$1,500

Start Date	End Date	Location	Price
05 Oct 2026	09 Oct 2026	Physical	\$1,500
12 Oct 2026	16 Oct 2026	Physical	\$1,500
19 Oct 2026	23 Oct 2026	Physical	\$1,500
26 Oct 2026	30 Oct 2026	Physical	\$1,500
