

Training Course on Digital Storytelling and Communication for Agricultural Innovations

Professional Development Training Course Outline

Category	Agriculture	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In the age of digital transformation, agriculture must embrace innovative communication strategies to effectively disseminate knowledge, technologies, and success stories to farmers, researchers, policymakers, and stakeholders. Digital storytelling for agricultural innovations empowers agripreneurs and extension officers to create compelling narratives using visual, audio, and multimedia tools. Training Course on Digital Storytelling and Communication for Agricultural Innovations is designed to bridge the communication gap between agricultural innovations and rural communities by equipping participants with digital communication skills for impactful outreach.

With the growing influence of social media, mobile technology, and data-driven communication, digital storytelling provides a powerful medium to capture attention, engage communities, and accelerate the adoption of agricultural technologies. Through practical sessions, case studies, and interactive modules, participants will gain hands-on skills in visual storytelling, video production, podcasting, infographics, and strategic digital communication tailored for agricultural innovation.

Programme Curriculum

Training Course on Digital Storytelling and Communication for Agricultural Innovations

Introduction

In the age of digital transformation, agriculture must embrace innovative communication strategies to effectively disseminate knowledge, technologies, and success stories to farmers, researchers, policymakers, and stakeholders. Digital storytelling for agricultural innovations empowers agripreneurs and extension officers to create compelling narratives using visual, audio, and multimedia tools. Training Course on Digital Storytelling and Communication for Agricultural Innovations is designed to bridge the communication gap between agricultural innovations and rural communities by equipping participants with digital communication skills for impactful outreach.

With the growing influence of social media, mobile technology, and data-driven communication, digital storytelling provides a powerful medium to capture attention, engage communities, and accelerate the adoption of agricultural technologies. Through practical sessions, case studies, and interactive modules, participants will gain hands-on skills in visual storytelling, video production, podcasting, infographics, and strategic digital communication tailored for agricultural innovation.

Course Objectives

1. Understand the concept and relevance of digital storytelling in agriculture.
2. Identify key agri-communication strategies for rural engagement.
3. Learn multimedia content creation for agricultural narratives.
4. Apply social media tools to amplify agricultural innovations.
5. Develop skills in video storytelling and basic editing for field success stories.
6. Create audio storytelling (podcasting) for farmer-focused communication.
7. Design infographics and visual data communication for agricultural insights.
8. Analyze audience segmentation and digital outreach strategies.
9. Build competence in agricultural blogging and digital journalism.
10. Understand mobile storytelling and SMS-based communication in rural contexts.
11. Use data storytelling tools for communicating agricultural research.
12. Evaluate successful digital campaigns and agri-digital branding case studies.
13. Develop a personalized digital communication strategy for field application.

Target Audience

1. Agricultural Extension Officers
2. Agripreneurs and Start-up Founders
3. Communication Specialists in Agriculture
4. Researchers and Academicians in Agri-sciences
5. Policy Makers in Agriculture and Rural Development
6. NGO and Development Sector Professionals
7. ICT Experts in Agriculture
8. Farmer Leaders and Cooperatives

Course Duration: 5 days
