

Training Course on E-Human Resource Management

Professional Development Training Course Outline

Category	Human Resource Management	Duration	10 Days
Base Fee	\$3,000 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In the era of digital transformation, organizations are rapidly shifting from traditional HR practices to E-Human Resource Management (E-HRM) to enhance operational efficiency, data accuracy, and employee experience. This cutting-edge course is designed to empower HR professionals with the latest digital tools, AI-driven analytics, and cloud-based HR solutions to streamline recruitment, training, performance management, and more. As businesses increasingly embrace automation and data-driven decision-making, mastering E-HRM is essential for staying competitive and future-ready.

Training Course on E-Human Resource Management equips learners with strategic insights into HRIS (Human Resource Information Systems), HR analytics, virtual onboarding, and remote workforce management, integrating trending HR technologies like chatbots, blockchain for HR, and mobile HR apps. Whether you're a seasoned HR professional or a business leader, this course ensures you're well-prepared to lead in the digitally transformed HR landscape.

Programme Curriculum

Training Course on E-Human Resource Management

Introduction

In the era of digital transformation, organizations are rapidly shifting from traditional HR practices to E-Human Resource Management (E-HRM) to enhance operational efficiency, data accuracy, and employee experience. This cutting-edge course is designed to empower HR professionals with the latest digital tools, AI-driven analytics, and cloud-based HR solutions to streamline recruitment, training, performance management, and more. As businesses increasingly embrace automation and data-driven decision-making, mastering E-HRM is

essential for staying competitive and future-ready.
