

Training Course on Joint Venture and Partnership Management in Oil and Gas

Professional Development Training Course Outline

Category	Oil and Gas	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today’s rapidly evolving global energy landscape, Joint Ventures (JVs) and Strategic Partnerships play a pivotal role in driving growth, innovation, and operational excellence within the Oil & Gas (O&G) industry. As the market experiences a surge in energy transition initiatives, cross-border alliances, and asset monetization strategies, effective JV governance, negotiation, and compliance are critical for sustained success. Training Course on Joint Venture & Partnership Management in Oil & Gas equips industry professionals with the skills, strategies, and insights to manage complex partnerships, mitigate risks, and maximize value creation across the O&G value chain.

This course provides a practical and strategic framework for structuring, managing, and optimizing Joint Ventures in upstream, midstream, and downstream operations. Participants will explore real-world case studies, apply proven tools for JV dispute resolution, and gain deep insights into local content strategies, contractual frameworks, and regulatory compliance in domestic and international markets. The course is designed to enhance operational efficiency, align partner objectives, and ensure the long-term success of JV operations in challenging environments.
