

Training Course on Mental Health and Well-being Support for Students

Professional Development Training Course Outline

Category	Educational Leadership and Management	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's fast-paced academic environment, mental health and well-being have become essential pillars of student success. Training Course on Mental Health and Well-being Support for Students is designed to equip educators, administrators, counselors, and support staff with evidence-based strategies to identify, support, and empower students facing mental health challenges. With rising cases of anxiety, depression, and stress among youth, institutions must cultivate inclusive, trauma-informed, and resilient learning spaces that prioritize emotional and psychological well-being.

This course provides in-depth knowledge on mental health literacy, early intervention techniques, wellness promotion, and peer support systems. Participants will explore mindfulness, emotional intelligence, resilience building, and crisis intervention through interactive modules, real-world case studies, and collaborative problem-solving. By completing this course, participants will be well-prepared to create safer, more supportive learning environments and promote student well-being across diverse educational settings.

Programme Curriculum

Training Course on Mental Health and Well-being Support for Students

Introduction

In today's fast-paced academic environment, mental health and well-being have become essential pillars of student success. Training Course on Mental Health and Well-being Support for Students is designed to equip educators, administrators, counselors, and support staff with evidence-based strategies to identify, support, and empower students facing mental health challenges. With rising cases of anxiety, depression, and stress among youth, institutions must cultivate inclusive, trauma-informed, and resilient learning spaces that prioritize emotional and psychological well-being.

This course provides in-depth knowledge on mental health literacy, early intervention techniques, wellness promotion, and peer support systems. Participants will explore mindfulness, emotional intelligence, resilience building, and crisis intervention through interactive modules, real-world case studies, and collaborative problem-solving. By completing this course, participants will be well-prepared to create safer, more supportive learning environments and promote student well-being across diverse educational settings.

Course Objectives

1. Understand core concepts of student mental health awareness and emotional well-being.
2. Identify early signs of stress, anxiety, depression, and trauma in school-aged learners.
3. Build capacity for empathy-driven, trauma-informed support systems.
4. Promote emotional intelligence and resilience among students.
5. Integrate mindfulness practices into daily learning routines.
6. Design inclusive mental health response protocols.
7. Apply data-driven intervention strategies for mental wellness.
8. Utilize digital tools and mental health apps to track student well-being.
9. Encourage peer mentoring and student-led support networks.
10. Support educators with self-care strategies to prevent burnout.
11. Establish safe channels for student mental health disclosures.
12. Develop a sustainable well-being policy framework for institutions.
13. Collaborate with mental health professionals for school-wide intervention plans.

Target Audiences

1. School counselors
2. K-12 educators
3. College faculty and staff
4. Academic advisors
5. Mental health professionals
6. School administrators
7. Parents and guardians
8. Youth mentors and peer leaders

Course Duration: 5 days
