

Video Summaries of M&E Findings Training Course

Professional Development Training Course Outline

Category	Monitoring and Evaluation	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's fast-paced development and corporate environments, the ability to distill Monitoring and Evaluation (M&E) findings into concise, engaging video summaries is an essential skill for program managers, evaluators, and communication specialists. Video Summaries of M&E Findings Training Course equips participants with the technical, creative, and analytical skills required to transform complex M&E data into impactful visual narratives that enhance decision-making, stakeholder engagement, and organizational learning. Participants will gain hands-on experience in video production, storytelling, data visualization, and digital dissemination techniques tailored specifically for M&E insights.

This course emphasizes the integration of emerging digital tools, multimedia storytelling, and evidence-based communication strategies to ensure that M&E findings are not only informative but also actionable. By the end of the program, learners will confidently produce high-quality video summaries that amplify program impact, drive accountability, and influence policy decisions. Real-world case studies, interactive exercises, and practical assignments ensure that every participant leaves with both the knowledge and practical capability to produce professional M&E video summaries.

Programme Curriculum

Video Summaries of M&E Findings Training Course

Introduction

In today's fast-paced development and corporate environments, the ability to distill Monitoring and Evaluation (M&E) findings into concise, engaging video summaries is an essential skill for program managers, evaluators, and communication specialists. Video Summaries of M&E Findings Training Course equips participants with the technical, creative, and analytical skills required to transform complex M&E data into impactful visual narratives that enhance decision-making, stakeholder engagement, and organizational learning. Participants will gain

hands-on experience in video production, storytelling, data visualization, and digital dissemination techniques tailored specifically for M&E insights.

This course emphasizes the integration of emerging digital tools, multimedia storytelling, and evidence-based communication strategies to ensure that M&E findings are not only informative but also actionable. By the end of the program, learners will confidently produce high-quality video summaries that amplify program impact, drive accountability, and influence policy decisions. Real-world case studies, interactive exercises, and practical assignments ensure that every participant leaves with both the knowledge and practical capability to produce professional M&E video summaries.

Course Duration

5 days
