

Workforce Forecasting Training Course

Professional Development Training Course Outline

Category	Human Resource Management	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's era of digital transformation, AI-driven analytics, workforce optimization, and strategic talent management, organizations must proactively anticipate future talent needs to stay competitive. Workforce Forecasting is a critical capability that enables businesses to align human capital strategy with business growth, market volatility, automation trends, and data-driven decision-making. Workforce Forecasting Training Course equips HR leaders, workforce planners, and business strategists with cutting-edge tools, predictive modeling techniques, and real-world case studies to drive sustainable organizational performance.

This course integrates predictive analytics, scenario planning, strategic workforce planning (SWP), HR analytics dashboards, demand-supply modeling, and future-of-work frameworks to help organizations minimize skill gaps, reduce turnover risk, and optimize workforce costs. Participants will gain hands-on expertise in AI-powered forecasting tools, workforce segmentation, talent pipeline analysis, and agile workforce strategies, ensuring they can design resilient, future-ready workforce plans aligned with long-term corporate objectives.
